Form 01 Clinical Screening

- Site name
- Patient initial
- Patient ID
- Visit date (screening informed consent date)
- Date of birth
- Eligibility checklist (04)
- Exclusion checklist (06)
- Is she eligible

Form 02 Screening investigation results

- Patient initial
- Visit date
- Patient ID
- Last normal menstrual period
- Weeks of pregnancy
- History of pregnancy (parity, gravidity)
- Education level
- Adverse previous pregnancy associated factors (still birth, miscarriage, low birth weight, neonatal death)
- Vital sign (temperature (35.3-37.4), pulse rate (60-114), blood pressure (systolic 90-140) (diastolic 60-90), respiratory rate (16-24)
- Anthropometry (weight, height)
- Please record presence of any of the following symptoms. (Headache Dizziness Nausea Vomiting Diarrhoea Abdominal Pain Itching Chills / Rigors Jaundice Dark urine Repeated generalized convulsions Muscle pain Fatigue Others SPECIFY)
- Pregnancy test (Was a pregnancy test conducted before the day of randomization?, If yes pregnancy test date, Test Result)
- Hemoglobin test (Was a hemoglobin level checked before the day of randomization, If yes, test date, Test Result) (1-14)
- Malaria test result (Was malaria test done before the day of randomization, If yes, test date, Test Result)
- Obstetric ultrasound done (Was obstetric ultrasound done before the day of randomization, If yes, scan date, Estimated Gestational age (5-27+6), Singleton gestation/multiple gestation

Form 03 Randomization

- Patient ID
- Patient initial
- Visit date
- Randomization procedure (1.ELIGIBLE FOR ENROLLMENT AND TREATMENT

A. Do the Clinical Screening (Form 1) and Screening Investigation Results (Form 2) all indicate that the patient is eligible for participation in the study? 2. CONSENT FOR TREATMENT

A. Has signed written consent or witnessed oral consent in the case of illiteracy been obtained?

- study arm Arm 1 (standard of care): Arm 2 (Active case detection using LAMP):

FORM 05 microscopy and RDT (blood)

- Patient ID
- Patient initial
- Visit date
- Visit number
- Sample collection
- Sample check up
- Tick blood smear
- Plasmodium species
- Second reading
- Plasmodium species

- RDT results
- RDT results (tick if the line is present)

FORM 06 LAMP (blood)

- Patient initial
- Patient ID
- Visit date
- Visit schedule
- Sample collection
- Sample check up
- Pan malaria
- Result
- Pf malaria
- Result
- Pv malaria
- Result

FORM 07 Microscopy (placenta blood)

- Patient initial
- Patient ID
- Visit date
- Weeks of pregnancy at delivery (max 42 weeks)
- Placenta expulsion
- Slide preparation
- Sample check up
- Thick blood smear
- Plasmodium species
- Malaria pigment
- Gametocytes

FORM 08 malaria positive patient

- Patient ID
- Patient initial
- Visit date
- Malaria positive test
- Malaria species
- Treatment given
- Drug
- Administration route
- Dose
- Duration of treatment
- Frequency
- Vomiting post treatment uptake
- Treatment course completed

FORM 09 Maternal hemoglobin

- Patient initial
- Patient ID
- Visit date
- Visit number
- Sample collection
- Sample check up
- Result (11-18)

FORM 10 Newborn hemoglobin

- Patient initial
- Patient ID
- Visit date
- Visit number
- Sample collection
- Sample check up
- Result (14-24)

Form 11 Patient assessment form

- Patient initial
- Patient ID
- Visit date
- Visit category
- 2.1 Vital signs
- 2.2 Anthropometry
- SAMPLE STORAGE
- A. Was a blood sample aliquoted for storage?
- B. If ‘No’, state reason for those patients that consented
- D. Was a blood sample sent to the laboratory?
- E. If ‘Yes’, date:
- F. If ‘Yes’: Was malaria test done?
- G. If ‘Yes’: was hemoglobin test done?
- H. If ‘No’, state reason

- I. Was blood sample taken from the placenta? (For delivery date visit date only)
- J. If 'No': state reason

Form 12a Delivery date Newborn Assessment Form

- Patient initial
- Patient ID
- Visit date
- Delivery location
- Delivery outcome
- Sex
- APGAR score (1st min, 5th min) 0-10
- Weight in grams (2500-4000)
- Gestational age at delivery (37-40 weeks)
- Foot heel prick hemoglobin test result (14-24)
- Vital sign (respiratory rate 30-50), (temperature 35.5-37.5), (heart rate 100-160)
- Mode of delivery
- Onset of labor
- Duration of labor
- Placenta weight

Form 12b - 28th day after birth Newborn Assessment Form

- Patient initial
- Patient ID
- Visit date
- Age in days (26-30)
- Sex
- Outcome at this date
- Weight in grams

Form 13a Adverse Event (AE) Form

- Patient initial
- Patient ID
- Ai) AE number
- Aii) Event name
- Aiii)Grade at onset(1-4)
- Aiv) Date of onset/ worsening of event
- Av) Date resolved/death/loss to follow-up/complete withdrawal
- Avi) Relationship to the study (1-5)
- Avii) Outcome of the study (1-7)
- Aviii) Is it a Serious Adverse Event? (1-2)

Form 13b serious adverse events (SAE) report form

- Patient initial
- Patient ID
- Visit number
- SAE onset date
- SAE stop date
- Grade of the event (DAIDS 1-4)
- Event status
- Sex
- Age >18
- Brief description of the nature of the serious adverse event
- Category of the serious adverse event (if death is selected date is a must, one of the boxes must be ticked)
- Relation of the event to the study intervention
- Was study intervention discontinued due to event
- What medications or other steps were taken to treat serious adverse event
- Type of report

Form 14 Home Visit Form

- Patient initial
- Patient ID
- Visit number
- Visit date
- Reason for home visit
- Place/person visited
- 3a was patient seen

- 3b (only if 3a is yes) I and ii
- 3c)(If 'No' to 3A)
- 4a and 4b
- 5 no one seen

Form 15 Final Form

- Patient initial
- Patient id
- A. If the patient was randomized, did they complete follow-up? (yes or no)
- Final visit date
- Corresponding visit week
- Reason for early discontinuation (tick yes or no for each question)
- vi) If the patient has not died, date last known to be alive (date should be entered)

Form 16 Death Report Form

- patient id
- patient initial
- date of death
- c) i) place of death (if other is selected continue to c ii) specify--- iii) means of notification (if other is selected continue to specify)
- D is the death related to pregnancy and child birth (if yes is selected specify)
- E disease or condition directly leading to death

Form 18 Prior and Concomitant Medications

- Patient initial
- Patient id
- Ai) medication
- Aii) indication
- Aiii) daily dose
- Aiv) unit
- Av) number of doses per week
- AVi) Route O, IV, SC, IM, T, If other, specify
- Start date
- Stop date

Form 19 Medical/Surgical History and concomitant disease

- Patient initial
- Patient id
- 1-16 for all one option should be ticked and if yes is ticked for anyone information should be documented on the 'If Yes, Explain' part

Form 20 Per-Patient Missed Visit Log

- Patient initial l
- Patient id
- If any of the follow-up visits is missing in the database this form should pop up to remind the site investigators to complete this log.
